Did you know...?

Aves del Sur is a tribute to all of the bird species that thrive on their land and fly over their vineyards, exhibiting their free spirit. This characteristic is embodied in this youthful, fresh, light brand with defined, juicy flavours.

Producer: Del Pedregal Family Wines

The Del Pedregal Family has been associated with the wine industry since 1825, when Carlos Alberto del Pedregal arrived in Chile from Asturias in Spain, bringing European vines with him. He chose to settle in the beautiful Loncomilla Valley in the Maule region, attracted by the excellent conditions for viticulture. From then, eight generations have remained dedicated to the winemaking business, safeguarding the original traditions, whilst adapting to modern times. In this way, the company has been gradually investing in new technologies, acquiring new terrain, and challenging itself to respond dynamically to the needs of the 21st century consumer.
